The Twomp is back at ya once more on Breakdown FM with some of the dopest Hip Hop flava west of the Rockies. This radio show/mixtape has got everyone talking from coast to coast. We keep telling people not to sleep on the Emerald City and this version of the Twomp underscores that point. Merc and Hans Solo of Dred I keep the energy level on full tilt while B Girl Chillz holds it down on the ones and twos. In addition to dropping bombs by local favorites like Mr DOG, Choklate, Asun and Gabriel Teodros to name a few, we also feature interviews with Jace and Blak of Silent Lambs Project with guest host E. Mandisa. If thats not enough the show kicks off with special guest M1 of Dead Prez who speaks about the importance of Seattle Hip Hop.

Twomp co-host Julie C updates us on the case launched by the crooked Seattle police against local Hip Hop pioneer and legend DJ DV One. This case has galvanized the entire Seattle Hip Hop community. When you hear the breakdown of this horrific police terrorism incident, you'll clearly understand the importance of us as Hip Hoppers organizing and becoming politically active. If it can happen to a guy like DV One in front of his daughter, then anyone can become a victim.
