Late hip hop notable Notorious B.I.G. has released another posthumous album today. The release is just 3 days shy of the tenth anniversary of the death of the NY hip hop MC, who was murdered in Los Angeles, California on March 9th, 1997.

Some theories say the murder of Notorious B.I.G. was in revenge for the murder of his rival, west coast hip hop icon Tupac Shakur (2Pac). Those theories have never been proven, since no one has ever been arrested in either the murder of B.I.G. or of Tupac Shakur (2Pac).

This is the fourth posthumous record to be released by the NY hip hop notable.

The Notorious B.I.G., "Greatest Hits" is a 17-song set that includes hip hop and rap hits made famous by the hip hop notable BIGGIE, such as "Juicy" and "Big Poppa,". There are also two previously unreleased tracks: "Running Your Mouth" and "Want That Old Thing Back" released on this project.

Here are the tracks on Greatest Hits:

1. Juicy
2. Big Poppa
3. Hypnotized
4. One More Chance / Stay With Me - (remix)
5. Get Money - (with Junior Mafia)
