

Hip-Hop Rap and RB Submissions Wanted for Air Play

Written by Robert ID2867

Thursday, 20 July 2006 05:33 -

ThugLifeArmy.com is pleased to announce the addition of Thug Life Army Radio to their growing network. The soon to be live radio feed is being hosted by their affiliate partner CRNLive.com – the 'Original Chicano Radio Network'.

Thug Life Army Radio is seeking submissions from artists and especially unsigned hip-hop, rap and R&B and Soul artists who need exposure for their music.

The music programming will be mostly hard hitting hip-hop and rap but R&B and Soul artists will also have their place too. Artists who submit MP3's of their music do so with the understanding that it may be played on the air.

Although commercial music will also be played, the main focus will be on less heard and more deserving hip-hop, rap and R&B artists who need to be noticed and heard.

Special features of the new Thug Life Army Radio will include an unsigned artist time slot, where nothing but unsigned artists will shine thru their music.

Features are planned like the 'Xzibit Hour' where you will be able to listen to the west coast legend Xzibit for one hour straight. This program will be provided thru a unique affiliation with XzibitCentral.com, the leading Xzibit web site on the net. Featured material from Xzibit will make this a great hour of listening enjoyment for all fans of the west coast rap legend Xzibit.

On air artist interviews and a constantly updated news feed from www.ThugLifeArmy.com will also be part of the new Radio addition.

This newest addition to the ThugLifeArmy network is made possible thru CRNLive.com as they are hosting the feed and providing guidance and much help to make all this possible.
