Independently selling over 3,500 copies of her debut single 'shine", underground soul vocalist, Havana, released her debut album "Life: Living in Fearless Emotion" (Skoolcraft Music). After building a strong internet buzz, Havana, has garnered the interest of many notable industry insiders.

This highly anticipated CD showcases production from some of the underground's illest beatsmith's including Nicolay (Foreign Exchange), Symbolic One (Strange Fruit, Art of Onemind) and Waajeed (Bling 47, Platinum Pied Pipers).

"Life," touches on situations we can all relate too and also offers inspirational tunes that are based on overcoming adversity and living life to the fullest. Raised by her Grandmother in a gang infested area of Southern California, Havana, used her love of music to zone out the negative aspects of her childhood.

A new staple in Cali's underground soul culture, Havana, has performed live shows alongside other soul acts such as Adriana Evans, Dwele, Platinum Pied Pipers and The Rebirth. This project is destined to shine. "Life" will give you musical pleasure and open your soul to the sounds of Havana. It will be one of the top choices of 2005.
