

Family Violence Prevention Fund (FVPPF)

Our mission:

For more than two decades, the Family Violence Prevention Fund (FVPPF) has worked to end violence against women and children around the world, because everyone has the right to live free of violence. Instrumental in developing the landmark Violence Against Women Act passed by Congress in 1994, the FVPPF has continued to break new ground by reaching new audiences including men and youth, promoting leadership within communities to ensure that violence prevention efforts become self-sustaining, and transforming the way health care providers, police, judges, employers and others respond to violence.
