Having delivered his brand of demented comic relief meets sicko lyrical brilliance on hip-hop rap group D12's SoundScan-topping releases Devil's Night (2001) and D12 World (2004), rap artist Bizarre is once again getting at the status quo with Hannicap Circus, his solo debut on Sanctuary Records.

Hannicap Circus finds rapper Bizarre stepping out from the motley crew safety net of D12 members, fellow hip-hop and rap artists Eminem, Kon Artis, Swift, Kuniva and Proof. And according to the hip-hop wild-man, it's about damn time. His public fistfights for control over the Dirty Dozen against "leader" Marshall Mathers have become legendary in music industry circles.

This summer Bizarre and D12 are going out on the blockbuster Anger Management 3 Tour.

With the release of 'Hannicap Circus', hip-hop's special rapper Bizarre is set to begin his reign as the only emcee that matters.

In support of the June 28th release of rap artist Bizarre's CD – 'Hannicap Circus', we are proud to offer the CD as one of our give a ways this month.

Sponsored by Bizarre, Sanctuary Records and Special Ops Media this give away will end August 25th.
