This give away has ended. Thaks to all who entered and a special thanks to Motown for geting it together for us.

Winners are being notified by email.

If you did not win - PLEASE pick up this cd - you won't be dis-appointed---

May 24th Motown released its Motown Remixed CD. The project took classic Motown hits and remixed them using some of the best beat makers in the hip-hop and rap music business today.

The project is probably one of the best remix projects I have heard this year. The production is shared among various producers giving the album fresh unique beats all the way thru.

This is an album that will bring back a lot of memories for those who remember the Motown era of the music scene, and it will introduce many in the hip-hop and rap music arena to the classic sounds of Motown.

Thanks to Motown / Pgd and Elemental-Consulting we are very pleased to offer the Motown Remixed CD as our latest give away. This entire project has been handled uniquely well from start to finish. The 'love' Motown has put into this album and the 'love' they have shown the fans by supplying this give away is greatly appreciated.

If you need a lil proof here are 2 tracks for you to listen to, and hopefully if you are old enough you will also be blessed with memories of that time. And if you are not old enough to have memories, let these 'new' remixed versions of these songs introduce you to one of the most exciting times in music history, the Motown era.
