It is said that first impressions are lasting impressions. If this is true the entire game of hip-hop and rap better be aware that it is time to take it up a notch or two if they want to stay up with Lil Eazy E. He is going to set a new standard in the rap game.

You can have respect for artists in the game because they are there but the best kind of respect is respect that is gained. In this interview Lil Eazy E did just that for me. I gained much respect for Lil Eazy E. Knowing that he is busy finishing his album and with all the other things a serious business man has to do; he took time for his fans to sit and chew it up and not rush thru this interview. To me that shows his appreciation for his fans and the fans of his father; Eric 'Eazy E' Wright.. He is the type of artist we need in rap today. Everyone is complaining about the state of rap and hip-hop and where it is headed; well with Lil Eazy E you get the feeling it is headed in a new direction; a real direction.

Check out this interview and learn the real on Lil Eazy E in his words, not from someone who really don't know, but get it from the dude who lives it.

Lil Eazy E and Virgin have a few more surprises coming, so stay here to see what else they are coming up with for Lil Eazy E's fans.

Lil Eazy E is one of the most fan friendly artists I have met. He understands, and so does his people, that his fans are solid behind him and he is very appreciative for that and he is solid behind his fans.
