Chuck D, Flavor Flav, Professor Griff & Terminator X; better know as the legendary hip-hop rap group Public Enemy has a new release coming from PEEPWvinyl with distribution thru Koch this summer.

Ever the diligent, C Doc the Warhammer has just wrapped up the production and arrangement of 'World Tour Sessions , Best Of Public Enemy Live'.

Carefully compiled and the absolute first of the Public Enemy Archive Series, the disc features recorded performances from the 18 years blood, sweat and tearing up the stages.

A full dedication indeed with brilliant liner notes and photos, and cover artwork orchestrated by the Doc himself.

Heres a tracklisting, and the CD will emerge this summer on PEEPSvinyl distributed by KOCH.
