West coast rap artist Spice 1 returns with another heater. This time, he went in the studio and banged out 16 Brand New tracks. Unlike his previous release's, where old material had been used, this album is all new material from the Black bossalini himself.

If you've had doubts about Spice's recent material, doubt no more. Go cop this on January 25th and see why the whole bay is on the come up again. Support the west coast artist.
