KOCH Records is thrilled to announce the February 22nd release of the debut album from The Bone Brothers. The Bone Brothers is comprised of Bone Thugs-N-Harmony rap artist Layzie Bone and Bizzy Bone. The album also features Bone fellow rappersand members Krayzie Bone and Wish Bone, Mo Thugs, Outlawz, and Treach.

Over the past 9 years, Bone Thugs-N-Harmony have sold an astonishing 30 million units. Throughout the group's history, founding members Layzie and Bizzy Bone have always been ahead of the game, pioneering a sound that's been often duplicated but never replicated. Their sound is inextricably linked to the success of some of today's biggest artists including hip-hop's Nelly and R&B's R. Kelly. "The Bone Brothers" is an extension of that classic Bone sound and pioneering production that Bone fans have come to know and love.

Rapper Layzie Bone for one can''t wait to drop this release. He comments, "Bone Brothers in Harmony project is the bombest album they gonna get to date. It's an offspring from the Bone Thugs & Harmony side, it's that good music that trandscends to the next generation ''Catch The Vibe'' type sh*t ..... very trendsetting."

The album's first single, "Hip Hop Baby," impacts radio the week of January 10th.
