Hip Hop History In Effect The Legendary Crash Crew - An Interview with The Crash Crew by Davey D

We decided to take a look back and remember one of Hip Hop's pioneering crews that laid the blue print for super mega hip hop groups like Wu-Tang and any other large self contained crew.

Initially forming in 1977, the Crash Crew was the premier hip hop crew out of Harlem and helped put Manhattan on the map. They were also the first group to press up their own records and sell them out the trunk of their cars.

There's not enough words to describe this often overlooked hip hop group and their contributions.
