Still high off their respective records, hip-hop rap artists Snoop Dogg and The Game are set to grace the cover of XXL magazine's upcoming West Coast Resurrection March issue.

The issue's release also marks the 10th anniversary of the death of West Coast pioneer Eazy-E. The issue also includes features on former rap rivals, DJ Quik and MC Eiht; and an interview where Ras Kass speaks on life after prison.

For the West Coast Resurrection special, XXL also teamed up with MTV2 to celebrate the "25 Greatest West Coast Videos" of all time. The list will be featured in an upcoming MTV2 special slated to air March 13.

In his cover story, rapper The Game discusses working with Dr. Dre, gangbanging, leaving his foster home and his father allegedly raping his sister. "He never did a day in jail. My sister, to this day, has not changed her story from when she was 11," Game explained in the issue. "What am I gonna say to a girl that was raped by her own father? I would never want the details of that. I just always consoled her."
