Real Talk Entertainment has just announced a list of their upcoming projects from some of the best artists in hip-hop and rap today.

Coming soon from Real Talk are many albums that you will for sure not want to miss out on.

Legendary hip-hop and rap MC's Spice 1 & Mc Eiht have just recorded another album to come on Real Talk Entertainment. The first album "The Pioneers" turned out to be such a success (Charted on Billboard's Top100 Albums for over 8 weeks) that Real Talk Entertainment decided to pair the two most respected industry rap veterans up once again.

With Production by Big Hollis (Snoop Dogg, E-40, C-Bo, Bad Azz and many others) Tron Treez (Tony, Toni, Tone and Messy Marv) and others. The outcome was "Keep It Gangsta". The new album has the same quality as "The Pioneers", but this time around Spice 1 & Mc Eiht wanted to give the fans more of what they want, an album for the streets.

One of the many highlights of "Keep It Gangsta" is "187 Hemp" (a song about the different Weed Strains) a 2005 Remix of Spice 1's First Platinum Hit "187 Proof" (a song about liquors).
