Declared as “the next biggest name in Hip-Hop” by Source Magazine, rap artist, Renegade Foxxx, has made a name for himself in the Hip-Hop industry from New York to L.A. and he has everyone’s ear to the streets with his debut album “Still Hustlin,” that dropped recently.

Collaborates on Foxxx’s new album include notable Hip-Hop artists such as Trina, E-40, Bone Crusher, The Youngbloodz, and Petey Pablo, who all come together to produce an album full of club bangers and heavy hitters.

Picked up by Universal Records thanks to the buzz of the street and saturated mixtapes across the country, Renegade Foxxx is more than poppin’ collars, he’s burning the midnight oil to tell his story. Immediately ready to share his fame and fortune with a select few, Still Hustlin Records CEO, Renegade Foxxx is currently on the look-out for hot new Hip-Hop and R&B artists to add to his roster. In addition to the talent search, Foxxx already teamed up with artist Bone Crusher to launch an adult-themed club tour in Atlanta.

Up next on the entrepreneur’s list -- a Still Hustlin Clothing Line and an exclusive car club for high end sports cars...a true sign of an ultimate hustler.

Foxxx’s single “Tough Love” can be found on radio personality Wendy Williams’ new album “Wendy Williams Brings the Heat Volume 1” and his next album is set for release in the fall.
