The hip hop sound track for hip hop / rap notable Snoop Dogg's Hood Of Horror is in stores now. Many hip hop artists appear on this album.

Hood of Horror (aka Snoop Dogg's Hood of Horror) is a horror film adaptation of a fictional comic book, which is an anthology of three short tales set in an urban milieu in a style reminiscent of Tales From The Crypt and Tales from the Hood.

The movie debuted at the 2006 Cannes Film Festival. The American premiere was on October 18, 2006 at Mann's Hollywood and Highland in Los Angeles, CA. It was also the "secret" ninth film screened in the 8 Films to Die For film festival on November 19th, 2006 and will open wide in theaters in April 13, 2007.

Welcome to the Hood Of Horror, is a place where revenge is a dish best served cold... in a 40oz. The Hound of Hell is your guide through three terrifying tales from this nefarious neighborhood and its depraved denizens:

a hip hop tagger who finds out that not all gangstas die hard.

a spoiled heir to a Texan oil dynasty who murders for money but can't pay to stay. alive
