The Very Best of Death Row

Available Feb. 22, 05

Back on 12-13-05 we mentioned Death Row Records CEO Marion 'Suge' Knight had officially announced the upcoming release of a new album entitled 'The Very Best of Death Row'.

The album will be released in February 22 and distributed through Koch Entertainment. It is now available for pre-order. Click the image to place your pre-order.

Tracklist and cover art coming real soon.

The last official release from Death Row Records was 'Tupac Live'. Death Row pushed the release date forward 4 days for 'Tupac Live' because of bootlegging. It was released this past August.

Due to the recent events that occurred with the upcoming Tupac release 'Loyal to the Game', bootlegging will most likely be a concern with this Death Row release also. Support the west coast and Death Row Records and BUY the album. Do not 'steal' it by downloading any early releases that may hit the internet.
