New African American Author/Activist/Educator, Quinton Douglass Crawford, has produced a dynamic textbook "Knowledge For Tomorrow".

This book is slowly arriving to stores and libraries throughout the U.S., and hopefully other countries. It is a call toward global responsibility, unity among all peoples, and acknowledgement of the wrongs caused by Eurocentric and Arabizing influencing over other peoples.

It also gives excellent insight into health information that one would not expect to come from a writer in the social science area. The factual origins of AIDS, general cures for problems like diabetes, high blood pressure, and the so-called ADHD problem slated as a serious problem. The hip-hop music industry is given a high amount of praise in this book as well. The author gives prominent respect and promotes the positive lyrics of rap artists such as, KRS-ONE, Guru, ISIS, and others for the relative moral contribution made in the life of the author.

Recognition of the Native Peoples of the America's, and other Indigenous Peoples around the world are explained, and called upon for there significance, and to motivate the women to move into greater power roles. Women are subtly requested to take there natural leadership roles around the world, especially those of Africa, and the Americas.

Undeniable Metaphysical information, potentials towards WWII, and a draft for a new "U.N. Childrens Rights Declaration" is contained in the final chapter of this book. The earlier chapter on Nature, contains potential law changes for our world.

Below is a list of influences mentioned in the book:

Activists: Prof. Manu Ampim, The Late-Dr. Chancellor Williams, The Late-Dr. John Henrik Clarke, The Late-Malcolm X, The Late Kwame Ture, The Late-Prof. Joseph Campbell, The Late-Emilio Zapata, The Late Josei Toda, The Late- Khallid Muhammad, Min.
