“The Fix Extended Play” brings you the best in music today in a weekly half hour anthology that incorporates chapters from Current TV's music programming.

This week's Fix EP is packed with helpful information for aspiring film directors, anyone in need of Hip Hop history lessons and those who can't wait for Portishead's new album to be released!

First, the Fix walks the dog with Moby and learns about his new album and his aim to help struggling film auteurs. And later we sit in on a rare interview with trip hip-hop legends, Portishead, as they discuss their upcoming Current Music Event - "Portishead in Portishead".

Guitar Goddess and Golden Globe Nominee, Kaki King, guest hosts the Daily Fix and turns us on to an exciting new band from Germany.

And there are many more surprises from the world of Hip Hop including Houston hip hop rapper Paul Wall and Wax Poetics Magazine.

Hosted by Douglas Caballero, the resident host of television's first music blog “The Daily Fix,” “The Fix Extended Play” will provide viewers with a comprehensive and unique look at the world of new music and rock journalism every week. Each segment will profile an up-and-coming band, highlight new album releases for the week, showcase viewer-created music segments and report on the latest music headlines from around the world.

In addition, the show will also feature highlights from Current's resident music programs including “The Daily Fix,” “The Current Fix” and “Current Playlist.”
